Our Product is Valves. Our Business is Customer Service.

As a master distributor of valves and valve products, Energy Valves is laser focused on providing solutions for companies who sell valves. Our staff has decades of experience in this industry, so if your group calls Energy Valves, they will be talking to someone with extensive product knowledge. We built our website to be a resource for our customers. Every link on the "Products" page brings you to an overview of the valve, and a PDF of the catalog. Trim codes, dimensions, weights, torques... all just a click away. Our value proposition is available inventory and world class customer service. We look forward to providing this value to you and your team.
