

ENERGY VALVES

## PRODUCT SPOTLIGHT

# Galli & Cassina Lubricated Plug Valve

Galli & Cassina was founded in 1919 and is one of the oldest Italian companies still in business today. Galli & Cassina has lubricated plug valves installed on 6 continents. G&C opened their Houston, TX facility in 2020 to support the US Market. G&C has 100% ownership of all manufacturing, engineering, and design - no 3rd party manufacturing.

### Pressure Balanced Lubricated Plug Valves:

- API 6D.
- Standard Nace MR0175 compliant
- A352 LCC body/plug= -50° F applications
- Locking gears/levers as standard
- Fire tested API 6FA
- ISO 15828-1 Compliant for Fugitive Emissions
- Case hardened plug with PTFE low-friction treatment to reduce torque
- Offered in multiple patterns; Short, Venturi, Regular, and Full Port
- Zero leakage bubble-tight shutoff for pressures up to API 10K

### Ideal Applications:

- Throttling
- Blowdown
- Bypass
- Launcher/Receiver
- Storage

### Available with:

- Hard-facing Overlays
- Electroless Nickel Plating
- Tungsten Carbide Coating.
